

Shadow Wrap Prints

Shadow Wrap is stylish and will make any room stunning with its bold statement, whether it is for your home or office. A sturdy backing board with a slight raise, create a subtle shadow effect and adding depth to your image. The image overlaps the edge of the backing, giving it a gallery wrap look. Prints are protected by an ultra-thin matte coating, ensuring it remains vibrant and protected from fading and light exposure. It can even be cleaned by wiping it down with a damp cloth.
